LASERS / LIGHTS / HOLSTERS

READINESS REINVENTED.

THE VISIBLE SPECTRUM
WAVELENGTH IN NANOMETERS

VIRIDIAN GREEN® LASERS utilize a precise 532NM wavelength that is near the center of the visible spectrum, creating an optimum targeting dot that's up to 50x brighter than conventional red, visible at all times, under all conditions, and effective at distances no ordinary laser can achieve indoors or outdoors.

VIRIDIAN ELITE RED™ LASERS utilize a precise, advanced 635NM laser wavelength to generate the brightest, sharpest red dot possible, for more positive targeting, higher accuracy, and stronger intimidation in situations where lesser lasers may fade and fail.

RADIANCE™

TRADITIONAL

RADIANCE TACLIGHT TECHNOLOGY expands light into a wider beam, revealing over twice the horizontal area of conventional taclights. With no wasted light above or below your target area, you get a better picture, faster discovery, smoother tracking and more positive targeting than any other weapon-mounted tool. Radiance is standard on Reactor® and C-Series® taclights.

INSTANT-ON™

ALL PRODUCTS EQUIPPED WITH ENHANCED COMBAT READINESS (ECR®)

When you draw, it's on. Enhanced Combat Readiness® is the world's first automatic laser activation system. Just pre-set your Viridian® laser / taclight mode and slide your gun into an ECR® Instant-On™ holster. The instant you draw, the laser / taclight ignites automatically - no fumbling with buttons, squeezing grips or changing your hold.

ECR® Instant-On™ is the fastest, simplest activation available.

1. ECR® Instant-On™ feature shuts the Viridian® laser / taclight off while holstered.

2. The laser / taclight instantly ignites the moment you draw.

HYBRID BELT HOLSTER

This holster is the best of both worlds - strong glass-reinforced nylon shell and comfortable leather combine to make this an outstanding outside-the-waistband belt holster.

POCKET HOLSTER

Soft, yet tough pocket holster is comfortable for all-day carry and stays in your pocket when the gun is drawn.

All REACTOR[®] products include a hybrid belt holster with the exception of the Ruger LC9 and LCP pistols which include a pocket holster.

C SERIES®

Oversized Impact For Subcompacts.

The best compact laser / light combo on the market. The C Series® fits perfectly on any gun with a Picatinny rail including sub-compacts. They feature the brightest green and red lasers, Radiance® taclights, ECR® Instant-On™, and multiple modes of operation.

ECR® INSTANT-ON™
