

RIGHT OUT OF THE BOX,
IT'S OUT OF THE BOX.

Behind Viridian brilliance is engineering that's second to none. SmartLaser™ Technology drives multiple full-ambi, on-the-fly modes. Versa-Lok™ universal mount system fits any railed firearm perfectly. Gun-specific models let you match laser to handgun with absolute precision. High tensile polymer and aircraft-grade aluminum housings are ultra-lightweight and impervious to extremes. The lithium power cell delivers maximum energy and extended life for optimum readiness. World-class R&D ensures state-of-art performance. Because your weapon of choice deserves the best.

WHAT COLOR IS CONFIDENCE?

Viridian™ Green laser sights are the world's brightest, sharpest and easiest to use: Up to 50 times brighter than red lasers, multi-programmable to function exactly as needed in any situation, available with or without tactical light. And unlike conventional red lasers that can fade away, Viridian Green lasers stay sharp and easy to see day or night, indoors or out. That means faster target acquisition, easier tracking, instant intimidation, pinpoint accuracy. All to optimize your shot in any situation - at home, on the street, in the field, at the range. Total confidence, come what may. That's the brilliance of Viridian.

THE DIFFERENCE IS CLEAR.

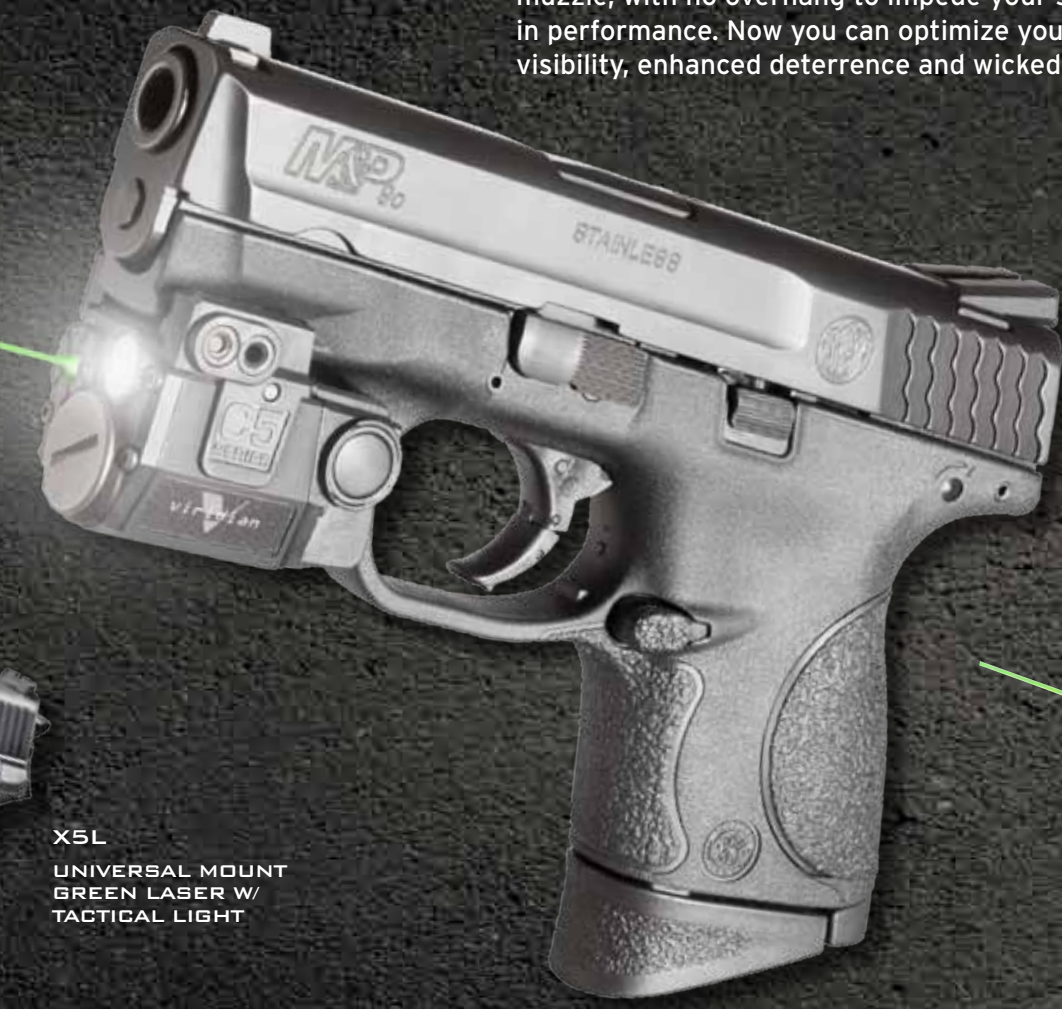

Viridian Green laser wavelength is near the center of the visible spectrum, for near-perfect visibility at all times, even in daylight.

UNIVERSAL

THE NEW C5 SERIES: THE WORLD'S ONLY SUBCOMPACT GREEN LASER

The tiny, powerful C5 Series tucks neatly between trigger guard and muzzle, with no overhang to impede your subcompact and no compromise in performance. Now you can optimize your conceal-and-carry with brilliant visibility, enhanced deterrence and wicked accuracy.

X5L TECHNICAL SPECS FOR FULL-SIZED HANDGUNS AND RIFLES

- + Built for full sized pistols and rifles
- + Includes a 100 lumen CQB white LED light
- + Fully ambidextrous with momentary or constant-on
- + Constructed of high strength glass filled nylon
- + Beam Intensity: 5mW
- + Wavelength: 532nm
- + Fully Windage/Elevation Adjustable
- + Incorporates SMARTLASER™ Technology
- + Achieves 4-7 hours from a single CR2 making it the most cost effective laser sight on the market

C5 SERIES TECHNICAL SPECS FOR SUBCOMPACT HANDGUNS

- + Built for Subcompacts, but, will also fit full-sized guns
- + L Model includes a 100 lumen CQB white LED light
- + Fully ambidextrous with momentary or constant-on
- + Constructed of aircraft grade aluminum and high strength glass filled nylon
- + Beam Intensity: 5mW / Wavelength: 532nm
- + Fully Windage/Elevation Adjustable
- + Incorporates SMARTLASER™ Technology
- + Approximately 65 min. of run-time w/ Laser and Light on high output
- + Extremely versatile mounting system (patent-pending) will allow for mounting on all railed firearms - including proprietary rails such as USP's, Sigma's, and closed-rail P99's

GUN-SPECIFIC

MAKE YOUR BEST, BETTER.

Six advanced Viridian Green laser sights designed to match your preferred sidearm perfectly, right down to the surface texture. The appearance is custom. The performance is beyond compare.

CUSTOM-FIT KYDEX HOLSTER INCLUDED
WITH ALL GUN-SPECIFIC AND SPECIAL EDITION LASERS

GLK FITS GLOCK W/RAIL
