GREEN LASER SIGHTS

 **PRODUCT
CATALOG**

RED IS DEAD.

*OUR LASER is
BRIGHTER than YOURS.*

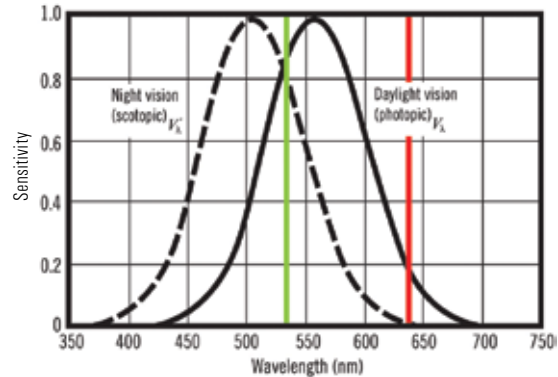

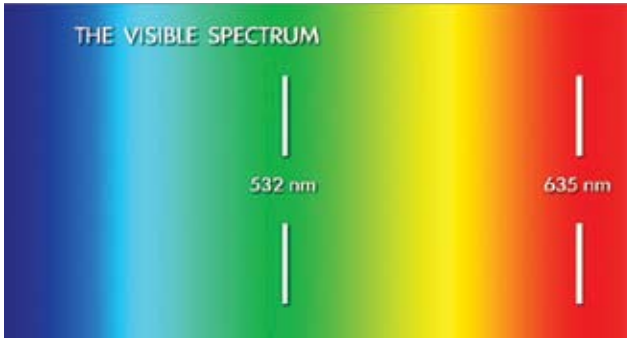

Red lasers can be next to impossible to see in most daylight conditions. The benefit of a green laser is that it is much more visible, allowing for use any time, day or night, indoors or outdoors, permitting you to track your target quickly and more accurately.

WHY GREEN?

Green is closer to the center of the visible spectrum, at 532 Nanometers, so it's easier for our eyes to perceive the color vs. a traditional red laser at 635 Nanometers. In fact, a green laser can appear as much as 50 times brighter than the red equivalent and is the ideal wavelength to maximize visibility during day or night.

Smarter, Brighter, Better.

SMARTLASER™ Technology

**The tactical teams wanted it... Now you can have it.
Separate modes allow for individual laser recognition in tactical team situations.**

The four modes consist of a constant beam and three distinct pulsing modes. Modes can be changed on the fly with ease so you can quickly select a unique aiming point.

Constant beam mode provides the maximum visibility - using one of the three pulsing modes will maximize battery life.

SMARTLASER™ Technology is made possible by a microprocessor which lies at the core of every Viridian. This allows for other innovative features, such as automatic power shut down in the event the Viridian is accidentally left on.

viridian™

PRODUCT CATEGORIES

● **MODEL SPECIFIC**

Perfectly designed to complement your favorite firearm to provide the ultimate in form, fit, and function.

● **SPECIAL EDITION**

We've broken ground once again, with the first ever color matched rail mounted accessory. Mount one of these on your firearm for a stunning package.

6

● **X5 SERIES**

Our VERSA-LOK™ Mounting System provides compatibility for all your railed firearms. From long gun to handgun, we've got your back!

● **HOLSTERS**

We've teamed up with the top holster manufacturers in the industry to bring you the best holster options for your Viridian-equipped firearm.

"Best laser sight I have ever seen or used - I plan on basing my future firearm purchases around this laser system."

- Jon M., KY

SXD

for **SPRINGFIELD XD/XDm** (not sub-compact)

You've got one and a half seconds to react... are you going to spend that precious time thinking about your sight picture or focusing on the threat? Viridian Green Lasers are the accessory of choice for those who take their personal and family defense very seriously. As with all our green lasers, the Viridian SXD produces laser light at the maximum legally allowed power giving you a highly visible aiming point.

VIRIDIAN X5

UNIVERSAL MOUNT

Mount the Viridian X5 on your railed 1911... fall in love with shooting all over again. Accuracy and intimidation are all the reasons you need to own a weapon-mounted laser sight. But there are others... like improved aiming speeds in high-stress situations, and just all around coolness. The X5 Series incorporates the patent pending VERSA-LOK™ mounting system to ensure a rock-solid fit on railed pistols and long guns alike.

The X5 can be converted to an X5L with purchase of Tactical Light upgrade.

WP99L

for WALTHER P99 (open rail)

DESIGNED TO FIT

What's YOUR tactical advantage? Good luck finding another laser accessory that outperforms the WP99L. With a tactical light that is optimized for Close Quarters Battle, it has a very wide angle of bright white light and a focused green laser. From the company that developed the first ever green laser for handguns, we bring you the most compact green laser/light combo ever built.

The Viridian WP99L is an X5L with a modified VERSA-LOK™ system to fit a Walther P99 with open rail.

HOLSTER

NYLON (1000 DENIER CORDURA® NYLON)

Viridian Green Lasers is proud to partner with BLACKHAWK! to bring you these exceptional holsters made to fit your Viridian-equipped handguns. We share the same philosophy: Better innovation with better engineering equals better products.

Viridian Nylon Holsters are available in two sizes: Small Frame Auto (SFA) and Large Frame Auto (LFA). The SFA fits the Viridian-equipped Walther P22 3.4" & 5" while the LFA covers the rest. Whether you're holstering a model specific Viridian or one of the X5 Series, the Viridian Nylon Holster LFA will do the job.
