PRODUCT 2011

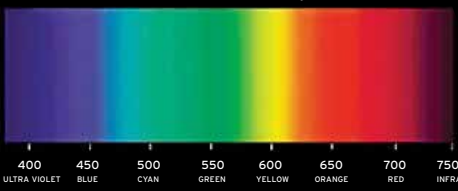

WHAT COLOR IS CONFIDENCE?

Viridian® Green laser sights are the world's brightest, sharpest and easiest to use: Up to 50 times brighter than red lasers, multi-programmable to function exactly as needed in any situation, available with or without tactical light. And unlike conventional red lasers that can fade away, Viridian Green lasers stay sharp and easy to see day or night, indoors or out. That means faster target acquisition, easier tracking, instant intimidation, pinpoint accuracy. All to optimize your shot in any situation - at home, on the street, in the field, at the range. Total confidence, come what may. That's the brilliance of Viridian.

WHY GREEN BEATS THE DAYLIGHTS OUT OF RED

Viridian green is close to the center of the visible spectrum, making it far easier to see than a traditional red laser. Viridian green appears up to 50 times brighter than the red equivalent, so it's sharp and clear day or night, indoors or out, under all conditions.

THE VISIBLE SPECTRUM - Wavelength in Nanometers

viridian®

DESIGNED AND BUILT IN THE USA

NEW FOR 2012

ENHANCED COMBAT READINESS

THREAT CAN ARISE IN AN INSTANT. YOU CAN REACT JUST AS FAST. THE SPLIT-SECOND YOU DRAW, VIRIDIAN'S ENHANCED COMBAT READINESS SYSTEM IGNITES THE BRILLIANT GREEN LASER AND/OR TACLIGHT TO TARGET, BLIND AND INTIMIDATE YOUR OPPONENT IN ONE REFLEX-FAST MOVE. SUDDENLY YOU'VE GOT THE ADVANTAGE.

With **Enhanced Combat Readiness (ECR)** now part of every universal Viridian laser and new TacLoc holster, you can achieve inhumanly fast response to crisis. Just pre-set the Viridian laser/taclight mode, slide your gun into your TacLoc holster, and the **ECR** system is armed and ready. The instant gun leaves holster, the laser fires a brilliant beam that cuts through daylight or darkness as fast as you can draw.

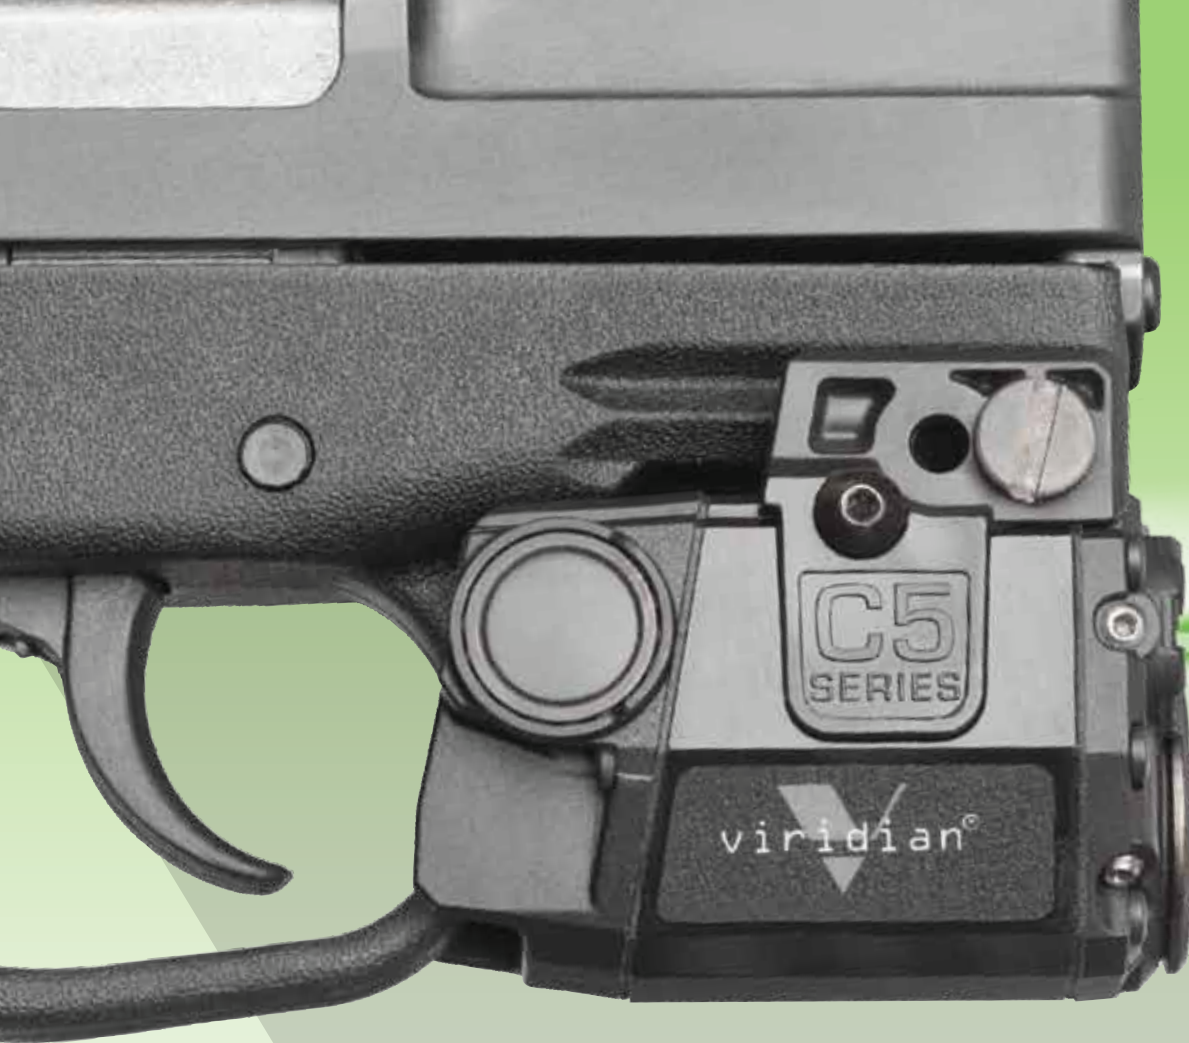

With virtually unlimited laser and/or taclight modes, a wide range of TacLoc holsters, and the breakthrough **ECR** system, Viridian has elevated combat readiness to a whole new level. Draw-and-activate is obsolete. Partner up with **ECR** and get the drop on evil.

INSTANT DRAW DETECTION

INSTANT LASER IGNITION

CARRY SMALL. RESPOND BIG.

NOTHING KNOCKS THE FIGHT OUT OF BAD GUYS LIKE THE SUDDEN APPEARANCE OF A C5-EQUIPPED SUB-COMPACT. THE ALWAYS-BRILLIANT GREEN LASER SAYS "DON'T MESS" 24 HOURS A DAY.

The available 100 lumen tactical light evaporates darkness and delivers an eye dazzling 140 lumen strobe that disorients the most determined attacker. Unlimited on-the-fly modes let you program your C5 fast and easy, giving you a fistful of deterrence in any situation. And the world's first sub-compact-mountable green laser fits neatly between muzzle and trigger guard, with no overhang to slow your draw or weigh you down.

The astounding C5 Series delivers flawless snag-free fit, uncompromised performance, and targeting impact nothing else can touch. That could make all the difference.

FOR
SUBCOMPACTS

C5 SERIES

C5 | LASER ONLY C5L | LASER & LIGHT

TACLOC™
HOLSTERS

DIMENSIONS:
1.90" L x 1.46" H x 1.31" W

WEIGHT: 2.414 oz.
(including battery)

CONSTRUCTION:
Primarily 6061 Aircraft
Grade Aluminum, front and
rearconversion high strength
Zytel® polymer.

LASER BEAM INTENSITY:
5mW peak, 532nm, Class IIIa,
Continuous wave.

**LASER BEAM DIVERGENCE/
SPOT SIZE/RANGE:**
1.2 mrad, approx 0.5" at 50 feet.
Up to 100 yards daylight,
2 miles at night.

USER ADJUSTABLE:
Easy to use windage and
elevation adjustments on laser.

BATTERY LIFE: 4+ hours
of constant laser runtime, 7+
hours of pulsing laser runtime,
60 minutes of laser and light
runtime. Unit runs on one CR2
3v lithium (included).

TACTICAL LIGHT OUTPUT:
100 lumens on continuous,
140 lumens on strobe mode.

ACTIVATION AND MODES:
Ambidextrous activation and
infinite amount of custom
operating modes (user can
customize laser pulse rate,
tactical light strobe rate and
light output).

**UNIVERSAL
MOUNTING SYSTEM:**
Three modular rail sets included
with unit allows quick mounting
to virtually all railed handguns
(including sub-compact)
and rifles.

FOR
FULLSIZE

X5L

FULLSIZE | LASER & LIGHT

BIG SURPRISE FOR BAD GUYS.

INTRODUCING THE LEANEST, BRIGHTEST, TIGHTEST X5L, RAMPED UP TO EVAPORATE DARKNESS, SUBDUE OPPONENTS AND OPTIMIZE A FULL-SIZED PISTOL LIKE NOTHING ELSE.

The blinding 154 lumen taclight is bigger and brighter, with beam intensity and explosive strobe that give aggressors nowhere to hide. The brilliant Viridian green laser is visible day or night, indoors and out. The leaner, aluminum-body profile fits your pistol as tight as a tattoo. An arsenal of custom modes lets you pre-program your tactics, then adjust modes on the fly to keep the advantage on your side.

You put a lot of thought, time and training into mastering your skill with weapons and tactics. The ultimate X5L makes sure it pays off when it counts.

TACLOC™
HOLSTERS

DIMENSIONS:

2.84" L x 1.37" H x 1.45" W

WEIGHT:

3.3 oz. (including battery)

CONSTRUCTION:

Primarily 6061 Aircraft Grade Aluminum, front and rear covers in high strength Zytel® polymer.

LASER BEAM INTENSITY:

5mW peak, 532nm, Class IIIa, Continuous wave.

**LASER BEAM DIVERGENCE/
SPOT SIZE/RANGE:**

1.2 mrad, approx 0.5" at 50 feet. Up to 100 yards daylight, 2 miles at night.

USER ADJUSTABLE:

Easy to use windage and elevation adjustments on laser.

BATTERY LIFE:

6+ hours of constant laser runtime, 10+ hours of pulsing laser runtime, 60 minutes of laser and light runtime. Unit runs on one CR123A 3v lithium (included).

TACTICAL LIGHT OUTPUT:

154 lumens on continuous, 187 lumens on strobe mode.

ACTIVATION AND MODES:

Ambidextrous activation and infinite amount of custom operating modes (user can customize laser pulse rate, tactical light strobe rate and light output).

**UNIVERSAL
MOUNTING SYSTEM:**

Modular rail set included with unit allows quick mounting to virtually all railed handguns and rifles.

FOR
RIFLES | SHOTGUNS

X5L-RS

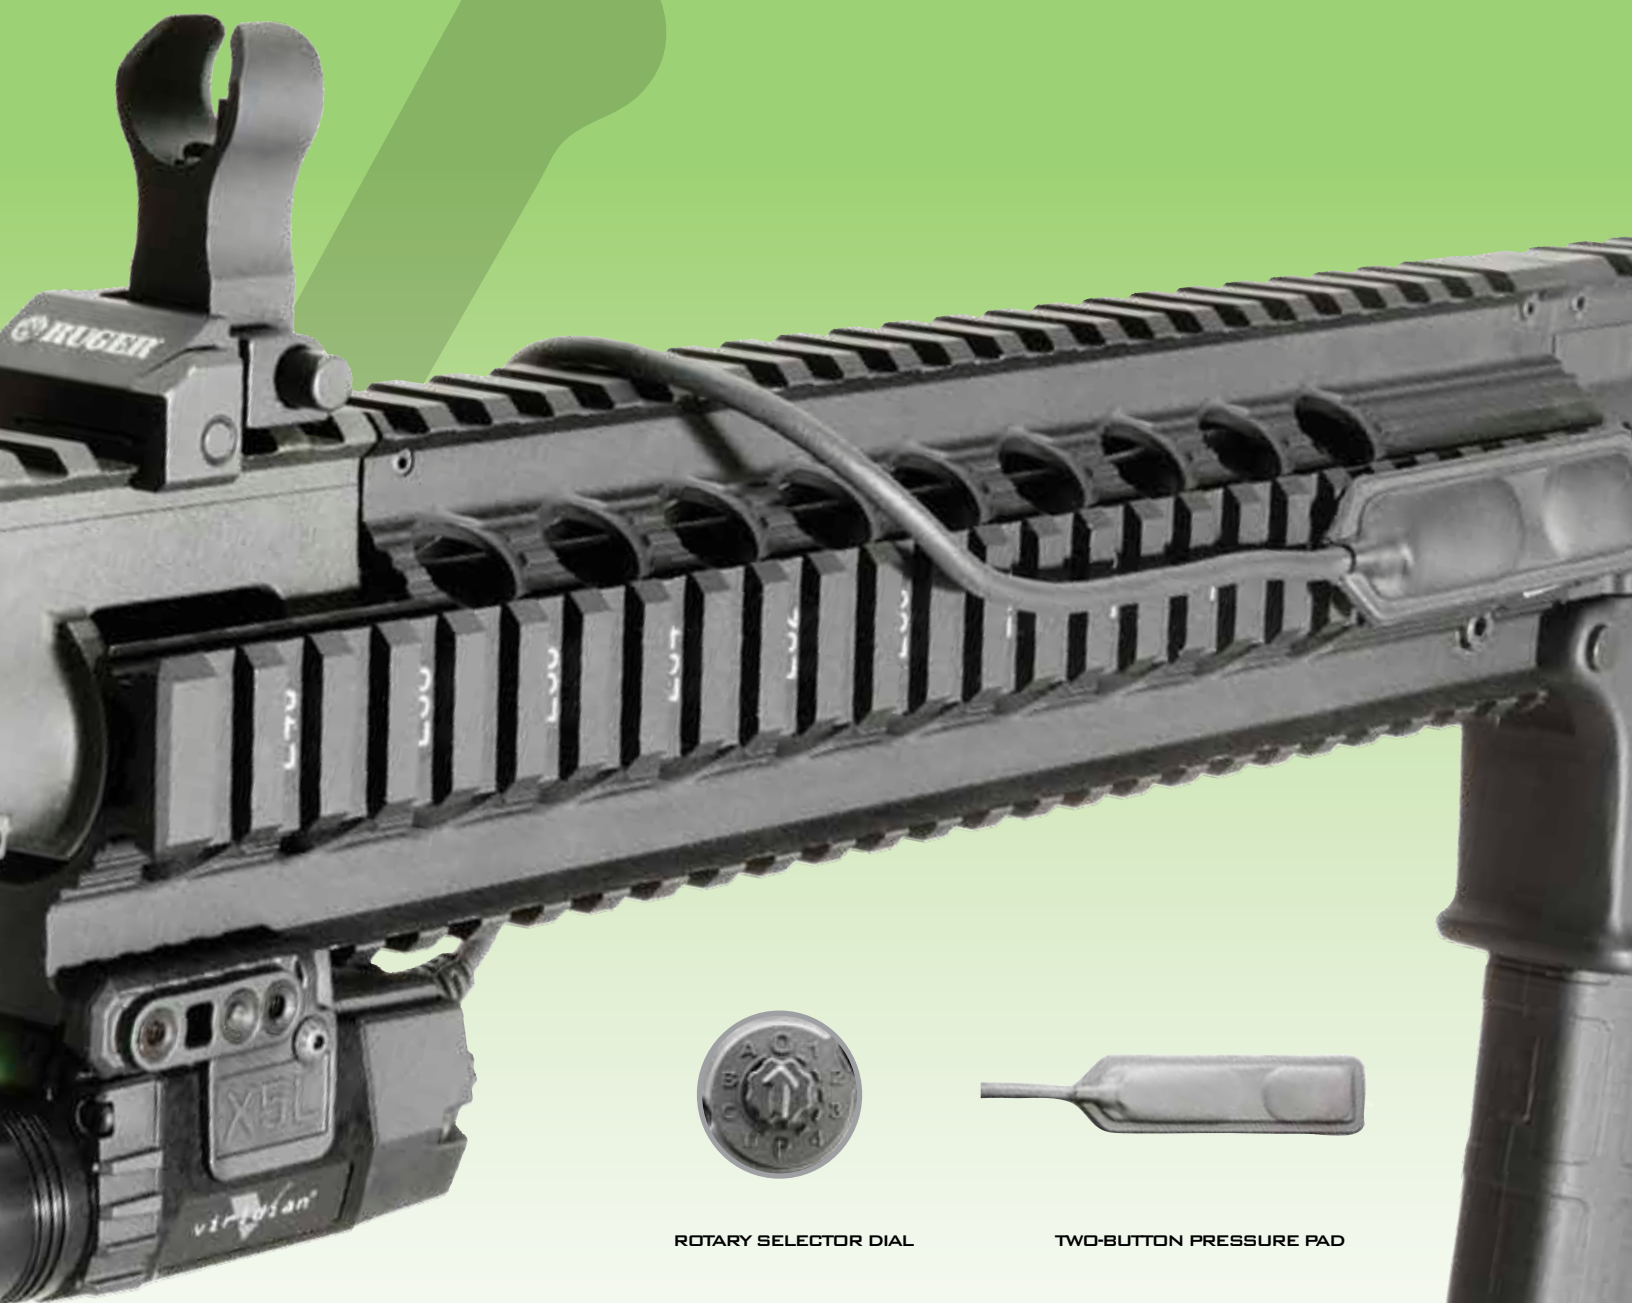

CUTTING EDGE, MISSION READY.

THE GAME-CHANGING PERFORMANCE OF THE ALL-NEW X5L, ENGINEERED TO UPGRADE YOUR RIFLE OR SHOTGUN TO PEAK TACTICAL FUNCTION, INTIMIDATION AND ACCURACY.

A unique rotary selector dials in multiple light and laser modes. An exclusive two-button pressure pad puts optimum light and laser control at your fingertips. A blinding 154 lumen taclight/darkness and baffles opponents. And the brilliant Viridian green laser ensures sharp, clear targeting day or night, indoors and out.

It's the ultimate tactical accessory, designed to give you every possible advantage when nothing less will do.

ROTARY SELECTOR DIAL

TWO-BUTTON PRESSURE PAD

WHEN YOU DRAW, IT'S ON.

TACLOC ELEVATES YOUR HOLSTER TO A WEAPON-RESPONSE TOOL THAT SECURES YOUR GUN, SPEEDS YOUR DRAW AND OPTIMIZES YOUR LASER LIKE NOTHING ELSE. CUSTOM FIT MATCHES YOUR VIRIDIAN-EQUIPPED PISTOL FLAWLESSLY. HOLSTERING THE GUN SECURES IT PERFECTLY.

Drawing releases it smoothly, and the Enhanced Combat Readiness (ECR) system ignites your laser instantly, automatically, the second you draw. It's the most advanced, most effective carry setup you can get. Because you deserve every advantage there is.

NEW!

TACLOC™

LASER-READY AUTOLOCKING HOLSTER

- 1 Grip weapon with index finger extended
- 2 Lay finger on TacLoc release, press and draw
- 3 ECR system instantly ignites laser and/or taclight
- 4 Finger aligns itself in ready position

NEW TACLOC LASER-READY AUTO LOCKING HOLSTER WITH ECR

Pre-set your Viridian laser mode, slide your handgun into your TacLoc™ holster, and you're ready for any situation. Perfect fit, instant auto-lock, fingertip release and ECR instant laser ignition give you faster, more accurate response than ever before.

- Enhanced Combat Readiness (ECR) system instantly ignites your laser, taclight or both the moment you draw
- Custom Viridian-matched fit for wobble-free carry, smooth draw
- Automatically secures your weapon when holstered
- Optimum button pressure for positive retention, extreme speed
- TacLoc button places finger in perfect ready position
- Pro-preferred mid-ride position, proven Kydex® construction

HOLSTERS

IWB

IWB LEATHER LASER-READY HOLSTER

Inside the waistband design, custom-matched to Viridian equipped pistols. Open top for fast draw, reinforced mouth for smooth return, tough nylon clip for secure belt hold. And, the unmatched comfort and durability of premium center cut steerhide.

- Specially designed for Viridian-equipped pistols
- Vertical position for strongside, crossdraw or appendix carry
- Premium steerhide with heavy nylon stitching
- Fits belts up to 1 1/2 " width

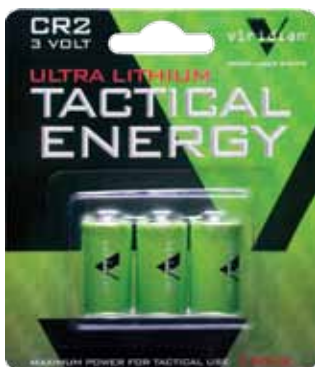

BATTERIES

TACTICAL ENERGY BATTERIES – THE PREMIUM POWER SOURCE

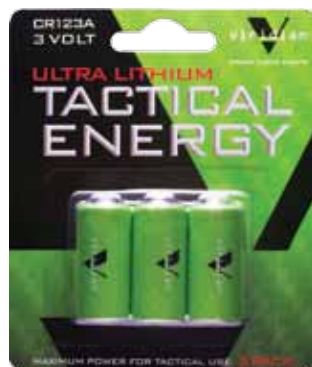

ENGINEERED TO DELIVER MAXIMUM ENERGY TO LASER SIGHTS AND TACLIGHTS, FOR CRITICAL TARGETING AND FAILSAFE ILLUMINATION WHEN LIVES ARE ON THE LINE.

Advanced ultra-lithium technology amplifies output, duty life and standby power for intensified performance in every mode and situation. This is the premium power that crucial combat tools demand.

- Designed for laser sights, weapon lights, tactical flashlights
- Optimum tactical energy in CR2 and CR123A sizes
- Extended standby power for critical reliability
- Full power delivery for the life of the battery
- Low-impact, recycle-friendly design
